

When the "File Download" box opens, you can either click "Open" or "Save."

1. If you click "Open," next click "Extract all files" under "Folder Tasks" on the left-hand menu.
2. When the "Extraction Wizard" opens, click "Next."
3. Click "Browse" and save the files to a folder on your computer whose location you will easily remember. (It may even help to make a new file on your Desktop or in "My Files.") Click "Next."
4. When the files are extracted, click "Finish."

1. If you click "Save," save the file in a location you will easily remember.
2. To extract the files from the zip file, right click on the file and click "Extract all . . ."
3. Follow steps 2-4 from the above instructions.

To Use As A Background:

1. To use the graphics for a background on your computer, right-click anywhere on your desktop and click "Properties."
2. Click on the "Desktop" tab. Click "Browse." Find the file you want to use as your desktop background. Click "Open."
3. Click "Apply." Click "OK."

To Use As A Screen Saver:

1. To use the graphics for a screen saver, right-click anywhere on your desktop. Click "Properties." Click on the "Screen Saver" tab.
2. On the drop down menu, change the screen saver to "My Pictures Slideshow." Click the "Settings" button.
3. Click "Browse." Find the folder that holds the photos you want to use as your screen saver. Click "OK." (Change any other settings you want to adjust.) Click "OK." Click "OK" once more.
