**Directions:** From Highway 20 (in Island Park, Idaho), turn east at mile post #394. This is N. Big Springs Loop Road. (There will be a large yellow sign that says Island Park Village Resort, and you will see a Robins Roost Chevron station on the corner.) Once on Big Springs Loop Road, on your left you will pass the first entrance of Island Park Village Resort. Then, not long after that, you will see 4189 on your left. It is the third cabin before you reach Two Top Road.

**Door Code:** As you stand in front of the front door, on your right side you will see a key lock box in the rock work. The code to the cabin lock box is \_\_\_\_\_. Make sure you feel a click as you push each number. Then push the open button towards the ground. This will open the lock box. (If you make a mistake, you will need to push the clear button to start over.) You will need to enter the code again to replace the cover as you hold down the open button. **Upon check out please leave the key on the kitchen bar counter top and lock the door behind you as you leave.**
